INTERNATIONAL CONFERENCE ON

OPIOIDS

Call for Proposals

International Conference On Opioids

Virtual Edition

The **International Conference On Opioids (ICOO Virtual) Program Committee** invites the submission of proposals for Presentations, Posters, Workshops and Corporate Satellite Symposia to be presented on the virtual edition website of the **International Conference On Opioids.**

Expanding on the success of our past conferences, this unique forum will be comprised of renowned specialists in all aspects of opioids. This includes the latest advances in basic science, neurology, clinical application, pharmacology, pharmacogenetics, public health, opioid addiction, ethics, legal, regulatory and compliance. The program is designed to enlighten healthcare providers with new data, essential information, and best practices every medical professional needs to know when caring for patients on opioid analgesics.

The **ICOO** Program Committee requests proposals representing all areas of opioid research, treatment, ethics, opioid abuse and addiction. Proposals from individuals and panels will be considered. Multidisciplinary panels are encouraged to include perspectives from physicians, nurses, psychologists, basic scientists, pharmacists, etc. Moderators should seek participation from a varied group of faculty with a maximum of four participants per proposal. Proposals that include both basic and clinical science are encouraged.

The following partial list of topics are suggested for submission:
- Translational Opioid & Pain Research
- Best Practices in Opioid Dosing, Rotation, and Titration/Tapering
- Basic Science Research in Opioids and Opioid Pharmacology
- Interventional Pain Management Opioid Techniques
- Opioid Choices in Organ Failure
- Opioid Utility- Albert Dahan and Group
- Opioids in the Midst of a Pandemic
- Targeting Opioid Receptors and Bias Agonism- Will There Ever be a Safe Opioid?
- Inequalities in Pain Experience and Pain Management
- Outcomes of Clinical Practice Guidelines for Opioids
- Ethical Issues in the Use of Opioids
- Legal, Regulatory, & Public Health Issues of Prescribing Opioids
- Opioid Abuse, Diversion, and Addiction; Issues and Detection
- Opioids in Acute Pain
- Perioperative Pain Management
- Opioid Stewardship
- Pain Management with Opioids for Cancer Survivors
- Pain Management in Opioid-Addicted Patients
- Use of Opioids in Chronic Noncancer Patients
- Abuse Deterrent Opioid Formulations and Their Applications
- Tapering Patients Off Opioids - Advanced Cases
- Treatment of Co-Morbid Conditions, eg Addiction and Bipolar Disorder; Addiction and ADHD
- Long Term Opioid Use and Its Effect on Adrenal Insufficiency
- Use of Buprenorphine for Treatment of Pain
- Interpretation of Urine Drug Screen Results
- How to Manage Patients on Medical Cannabis and Opioids
- How to Avoid Legal Problems in Today's Environment
- How Have the Plaintiff Law Suits Affected Opioid Prescribing?
- What Role do Prescription Opioids Play in the US Drug Crisis?
- What Role do Illegal Opioids Play?
- NIH Interagency Pain Management Recommendations

Proposals for previously presented or published work may not be submitted to **ICOO Virtual** without modification. Original work must be changed or expanded, resulting in a new proposal.

Oral presentation proposals accepted thru July 15, 2021.

Poster abstract submissions accepted thru July 15, 2021.

Please note: The moderator is required to include a complete standard format disclosure form as part of the submission. Moderators should contact the speakers named on the proposal to notify them of their inclusion in the submission, and to remind them to complete their disclosure information for inclusion with the abstract submission.

A complete proposal submission should include the following:
- Presentation title
- A brief description of the presentation, its need and rationale for your topic at the **ICOO Virtual** conference.
- Abstract text of up to 200 words, with information about each presenter's contribution; a focus statement with succinct description of topics discussed including background, purpose, procedures and conclusions.
- Educational objectives, goals and outcomes.
- Five (5) questions for a post conference test (*oral presentations only*)

Moderator and/or presenter information, including disclosures, bio and picture. Presenter's bio (250-300 words) should include both educational and professional achievements. Bio provided will be published in the program guide and used to introduce speakers. Picture must be high-res .jpg file.

Proposal Notification: Applicants will be notified within 2 weeks regarding selection of their proposals. All presenters will receive complimentary conference registration. Other details and terms of participation will be communicated to speakers upon acceptance of their proposal.

Presentation Times: Accepted presentations will be recorded and stored on the conference site. Select presentations may be scheduled to be presented live online per a schedule determined by the presenters and organizers. Emails will be sent announcing newly added recorded presentations and live online presentation times. Live presentations will be recorded and made available on the ICOO VIRTUAL site for later review. During the live online presentation, all presenters may respond to questions. After the presentation has been archived and posted on the ICOO Virtual website, only the lead presenter or a designate will answer email-based questions. Symposia sessions are 15-60 minutes in length. Panel presentations involving multiple presenters will be given additional time.

Presentation Materials: PowerPoint slides are required and are due within 21 days of acceptance of presentation for content review. MP4 video files can be recorded as soon as content review is complete. PDF handouts of slides will be posted with the video. The session moderator will be expected to assist ICOO Program Committee in the collection and organization of all presentation slides and handout materials.

Poster Details: Poster submissions may have been previously presented. Video posters must be original unreleased video and should be no more than 15 minutes in length. Poster presenters are required to register and attend the conference.

Submission Details: To submit all proposals, please visit **www.opioidconference.org** and use the **ICOO Virtual Submission form** available on the **ICOO Call for Papers** webpage.

Email your form to **jom@pnpco.com**. For assistance contact us at 781-899-2702, ext 108 or 114 from 9 am – 4 pm EST.

Important Dates:
- Oral presentation submissions through July 15, 2021.
- Presentation and symposia decision within 2 weeks.
- Presentation and symposia notification immediate after decision.
- Poster abstract submission deadline July 15, 2021.
- Poster decision and notification within 1 week.
- Presentation slides due for CME content review within 21 days of decision.
